BUILD AND PROGRAM ROBOTS THAT DO WHAT YOU WANT!

Meet **FISH-BOT**. He's programmed to lift a container of Fish Food, hold it over an aquarium, and shake out just the right amount to feed your hungry swimming pals. No overstuffed fish here! Best of all, **FISH-BOT** uses the NXT brick's Bluetooth-compatible technology to receive instructions remotely from your computer - no wires needed! ■

What's NXT?

Meet **FISH-BOT** and all the other MINDSTORMS NXT. Get yours at www.MINDSTORMS.com

LEGO **MINDSTORMS**
NXT

BUILD > PROGRAM > RUN > WATCH >

Bluetooth

1 Speak Bluetooth!
Do you?

Bluetooth technology lets your MINDSTORMS NXT robot send and receive data without wires or cables. You can use it to exchange programs between different NXT units and download programs directly from your computer to your robot.

You can even use a Bluetooth-enabled mobile phone as a remote control for your robot wherever you go!

For more information, check out www.MINDSTORMS.LEGO.com/overview/NXTreme.aspx

BUILD THE ULTIMATE Snowmobile!

LEGO **TECHNIC**

Ready for winter sports? LEGO TECHNIC is, with this new and authentic Snowmobile model. Build it and display it for those days when it's too cold to hit the snow on your own sled! Check out some of the great features of this detailed model and some Fun Facts about snowmobiles:

Move the handlebars to steer.

Independent front ski suspension.

New TECHNIC tracks really move, just like on a real snowmobile!

Real working tread

Rebuild into Bulldozer

Snowmobile Fun Facts

The first snowmobiles (circa 1923) were modified Ford Model-T's with the undercarriage removed and replaced with tracks and skis.

Modern snowmobiles can reach speeds in excess of 193 kmh (120 mph), and racing snowmobiles can go much faster.

Norway hosts an annual snowmobile river drag race, where high-speed

machines actually race across the surface of the water!

Snowmobilers in Canada and the United States spend over \$27

billion a year on their sport, and snowmobiles are becoming more popular in Europe every year.

LEGO

Happy Birthday, LEGO Club!

It's LEGO Club's 20th birthday, and we're going to be celebrating with you all year long! Watch for exciting features and fun in LEGO Magazine and on the new www.LEGOclub.com!

LEGO Clubhouse Building Challenge!

What if you could have a LEGO Clubhouse in your town? It would be a place where LEGO builders of all ages could meet, talk, and create awesome models! What would it be like? How would it look? What kind of things would you do there? Build your idea of a LEGO Clubhouse using pieces from your LEGO collection, and you could be one of 5 winners of a LEGO set worth up to \$100!

How to Enter:

- 1 Build a model of your ideal LEGO Clubhouse using pieces from your LEGO collection.
- 2 Take a color photograph of your model. Daily color photos and photos of models will be accepted - no Polaroids, please.
- 3 Write a paragraph of 50 words or less describing your ideal LEGO Clubhouse and list what kind of things you would do there.
- 4 Include both items in your entry, and send your entry with your color photograph and letter to: LEGO Clubhouse Building Challenge, P.O. Box 1625, Enfield, CT 06033-1625.

All entries must be received by March 1st, 2007!

For official rules, check out www.LEGOclub.com

LEGO Clubhouse Building Challenge
P.O. Box 1625

www.LEGO.com/insidetour

BIONICLE

BUILDER SHOWCASE

FOR THOSE OF YOU WHO LOVED THE SCHOLASTIC DARK HUNTERS GUIDE, HERE'S ONE MORE MEMBER OF THAT POWERFUL ORGANIZATION.

VENGEANCE

This Dark Hunter fought in the last battle of the Toa-Dark Hunter war, alone against Toa Lhikan. He was defeated and trapped, but escaped years later. He sought revenge on Lhikan, only to learn that the Toa had already been killed by Makuta. Frustrated at being cheated of his revenge, "Vengeance" transferred his rage to Makuta and swore to someday end that entity's existence. ■

Powers: "Vengeance" is armed with an extremely powerful shield capable of deflecting virtually any attack, wings for flight, and twin horns that deflect mental assaults. His Rhotuka spinners are capable of taking on solid form for a split second at a time and slicing through even the hardest metals.

Status: Active. "Vengeance" is convinced Makuta is still alive, despite reports to the contrary. He will not rest until he has personally erased the master of shadows from the universe.

Designed by
Malone Lumanda

Malone, age 10, loves to build BIONICLE and other LEGO models, along with playing baseball, basketball, and flag football. He is currently in 5th grade and his favorite subject is Math.

WHALE FACTS

A whale shark can live over 100 years!
